

# An innovative solution delivering beautiful turf with complete weed control and half the mowing

## Cost Effective

Scotts® ProVista™ grows slower than conventional Kentucky Bluegrass, saving valuable mowing time and reducing maintenance costs

## Complete Weed Control

Easily combat weeds without damaging turf

Beautiful dark green, uniform, dense appearance

## Sustainable

Reduced mowing means less carbon emissions from mowing

Stays green with less fertilizer and herbicide inputs needed

# Reduce one of your biggest costs while achieving superior results

## Minimal Investment

For a small premium per square foot, you can significantly reduce mowing time and cost

## Maximum Value

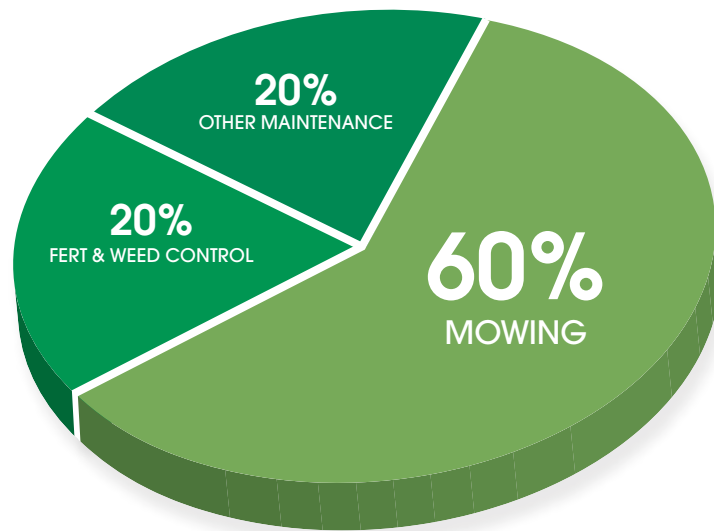

Mowing cost savings estimated at \$1,500 per acre, per year – every year.\*

## Backed by Scotts

With 150 years of experience, Scotts brings unbeatable support for turf establishment and success

## Available in Seed or Sod

For new construction and even conversion of existing properties

Typical Share of Landscape Budget\*

America's Turfgrass Expert. Est. 1868.

Scotts ProVista is the result of over 20 years and \$100 million of research focused on the development of turfgrass varieties requiring less maintenance and fewer inputs

\*Mowing savings based on estimated \$80 - \$200 cost per acre to mow. Landscape budget based on Scotts proprietary market research, excluding snow and ice removal.
